ORIGINAL

1 and Rita said the next thing they heard was a shot. She
2 was worried that -- she didn't know who was shot. She
3 thought. She felt herself and she looked at Dan, and I
4 guess Dan turned around and saw Shawn. And that's basically
5 all I heard from them about that. Dan was.

6 Q. Have you heard anything in addition to that about
7 what happened that night from any of them?

8 A. Actually I had heard about all the stuff before
9 that was on Channel 28 news. Dan has not talked a lot.
10 Rita has not talked a lot. I tend to get a little
11 hysterical about things, and that's probably why Dan doesn't
12 talk to me a lot so.

13 Q. With regard to the cleaning of the car.

14 A. Okay.

15 Q. Can you help with that? And your husband's
16 indicated I guess you all got some cleaning stuff?

17 A. Yes. She came over to the house. She came over
18 to the house and asked what she thought we should use, and I
19 figured Oxyclean. I'd used it on another cushion on the
20 couch. I thought -- it was like spit up from the baby, and
21 I figured if it does that kind of stuff maybe it will do.
22 And so I mixed up whatever the solution was and had a little
23 Gatorade bottle with a squeezy top, and gave her some gloves
24 and she had rags at the house. And we went up there and I
25 squirted and I told her to wipe and blot because she had to

1 soak up the liquid. So she wiped and blotted, and the one
2 bottle wasn't enough so I went back to the house and filled
3 another one. They were about this big. It's the kind that
4 have the --

5 Q. Right. Pop top or pull top.

6 A. -- top that you drink out of.

7 Q. Yes.

8 A. And I filled another one and did that. And when
9 she was pushing, we noticed dripping from the bottom. And
10 that's when we thought maybe there was like a well
11 underneath that needed to be washed out with the hose. So
12 we tried -- do you know where the seat goes down in the back
13 over there in the corner? Well, we tried to run a hose down
14 there.

15 Q. Was there a lot of blood?

16 A. There was a lot of liquid that came out.

17 Originally it was a darker color from the blotting; but it
18 was diluted with the water; and you could see it on the
19 driveway. You could see it on the driveway. It was a
20 discoloration.

21 Q. And did the vehicle just stay there basically then
22 while it was drying out?

23 A. I think so, yes. She opened all the windows. Was
24 it put in the garage? Was it brought in the garage
25 afterwards or not?
