**REFERENCE:**

A crime scene examination was conducted on October 2 and 3, 2001 for the Tarpon Springs Police Department and the Florida Department of Law Enforcement regarding the death investigation of Shawn R. McMillian.

**SCENE:**

The vehicle is described as a 1996 Honda Civic LX, black in color, bearing Indian River County Florida tag WJE 16U and VIN: 2HGEJ6677TH518778.

**ASSISTANCE RENDERED:**

The vehicle was photographed, documented, examined for blood and items of evidentiary value were collected.

**ITEMS COLLECTED:**

**Submission 002**

- #1 1996 Honda Civic LX.
- #1.001 Suspected hair collected from bloodstain on interior rear passenger door window.
- #1.002 Two (2) rolls 35mm color print film.

**Submission 003**

- #1 Four (4) computer disks containing digital images from crime scene.

**DISPOSITION OF ITEMS COLLECTED:**

**Submission 002**

Items #1.001 will be returned unworked until laboratory analysis is required by your agency.

Item #1.002 will be processed and the developed negatives will be retained in the Crime Laboratory files.

**Submission 003**

Item #1 will be retained by SA John Halliday and the printed digital images remain in the case file.

**REMARK(S):**

Item #1 was released to the owner, Rita Nordmark on October 4, 2001.

## Definition of Hair follicle

**Hair follicle:** A sac from which a hair grows and into which the sebaceous (oil) glands open. The follicle is lined by cells derived from the epidermal (outside) layer of the skin.

Each follicle normally goes through a five-year cycle of growth and rest, with about 90% of the follicles growing hair at any one time, averaging about six inches (15 cm) of growth per year. Derived from the Latin word follis, for bag.

## Normal Skin

"The human hair follicle is a dynamic structure that generates hair through a complex and exquisitely regulated cycle of growth and remodelling governed by numerous genes," Siobhán A. Jordan has noted in *Molecular Medicine Today*.
